

Essential Question: How can a mathematical lens help us to deeper unpack the assumptions we make about the world and seek after truth?

Newspapers - Mathematical Critique

Your name _____

Whose equation are you critiquing _____

1. Equation for the trendline:

$y =$

2. What does x stand for?

3. What does y stand for?

4. Create an input and output table with the equation...

x	y
0	
1	

5. Write the “Story of this graph” in one sentence:
