

Essential Question: How can a mathematical lens help us to deeper unpack the assumptions we make about the world and seek after truth?

Lesson Outline: “Mathiness of Truthiness” Launch

11:15-11:30	Notice/Wonder Protocol
11:30-11:45	Teacher-led activity modeling the ways that students will analyze graphs from different news sources and create headlines that tell different stories.
11:45-12:25	Students work in groups with their own graphs to analyze graphs and create two different headlines to share with the class the next day.
